Item No. 1

*Follow up review requested by the Board pertaining to the application of **Franklin D. Guidone and Elizabeth A. Guidone** for the proposed chimney on the west elevation of the new single-family residence and one cold accessory building and one heated building to be located at 75 Pyramid Avenue, Lot T3, Slate River Subdivision in the R1F zone.*

Staff Presentation: Earley explained that Chris Penfield and Andrew Hadley have submitted revised plans regarding the chimney for the proposed single-family residence, which was approved at the May 27th BOZAR meeting with the condition that the chimney be revised. The chimney now exits from the roof and no longer is located on the west wall. Staff finds support. Due to this revision and window was removed from this elevation. The site plan was also updated to reflect the proposals noted at the May 27th approval for the landscape plan. Proper public notice has been given.

DRC: NA

Applicant Presentation: Hadley and Penfield explained that he pushed the client to relocate the chimney near the ridge. They worked it into the plan. Due to this change, there will be less snow maintenance

Board Questions and Deliberation: Spann Labato confirmed if the fireplace was on Level 1 or 2 and Hadley explained. Level 1 is the basement. All members agreed that this puts the chimney in the right spot, better supported by the guidelines.

All members supported the revisions to the site plan.
